Enough paint for two small pieces of pottery!

PAINT KIT INFO

How To Paint Your Own Pottery

once you receive your order, please read these instructions and start by painting your pottery in your chosen base colour.

First, apply 3 coats of a pale colour everywhere on your ceramic.

Let the paint dry for 5 minutes between coats

Please note that the paint will seem a lot paler before it is fired.

For opaque colour be sure to only apply 3 coats.

CAREFUL! Any more than 3 coats or too thick paint can cause problems with firing

You can just paint your pot as you wish or see below if you want to trace a design onto your pot!

ADDING YOUR OWN DESIGN

Once your 3 coats have been applied, trace your drawing freehand or use a printed drawing found on the internet. You can draw on your ceramic only with a pen, the marks will disappear after firing.

Never use a pencil, traditional carbon paper or a marker on your ceramic as these methods can sometimes cause problems in the firing process.

1. Do not let the 3rd coat of paint dry completely. Let it dry slightly (you can manipulate your piece without damaging it even if it is still damp)

2. Apply your drawing face up onto the ceramic

3. Trace the contours of your drawing with a pen. Apply light pressure in order to leave a fine mark (engraving the drawing in the paint)

4. You should see your drawing on the ceramic once you remove the paper

5. If your drawing does not show, go over the lines a second time with a pen directly on your ceramic.

Follow this link for a demo www.youtube.com/

PLEASE ONLY USE THE PAINTS PROVIDED IN THE KIT AS OTHERS WON'T WORK IN THE KILN.

Includes Local Delivery

We are so lucky to have a business that brings lots of creativity and happiness to the table. Below are a few customer reviews about our service. We are so grateful for every review ♥

SHELLEY

*Customer since
2017*

What a wonderful activity for my 4 year old to partake in, really sparks his creativity!
I highly recommend Space 2 Make to all parents.

HELEN

*Customer since
2021*

I was gifted a pottery kit by a friend for my Birthday and it was so lovely to relax and spend time out doing something creative.
I have just ordered and painted another pot and I am hooked!

GEOFF

*Customer since
2018*

My little girl loves your Stay-at-Home pottery kit and loves her pottery princess who has pride of place in her bedroom. Can't wait to visit the store when you are allowed to re-open!

JANE

*Customer since
2017*

The BEST place to craft and have fun, learn, create and socialise!
Our group have been thankful for the pottery kits delivered during the lockdown and my daughter has made lots of lovely things over the years.
Shirley is so accommodating and has a wonderful venue that everyone loves!

before you order...

TERMS & CONDITIONS

PLEASE NOTE...Please note if pottery is broken or damaged at home, we cannot accept any responsibility for this and you will not be refunded so please do take care ♥

CLEANING UP:Before you pack up your kit, please give your tools a rinse with warm water + a quick dry - it's all safe to go down the sink. Paint washes off most clothes and hard surfaces. The very dark greens/browns/black can sometimes be a bit stubborn so do take care. Again we're cannot be held responsible for your cream sofa getting painty.
All kits are totally disinfected between bookings.

PAYMENT TERMS

Once we receive your order form we will check stock and confirm with an invoice. Once paid your kit will be packaged and dispatched on the next available delivery day!

LEAD TIME

Please contact us when your pottery is ready to collect and we will take it away to be glazed and fired. The pottery will be ready in 7-10 days after collection
